

PFAS Drinking Water Sampling

News Release Date
03-01-2023

The SPARTA WATER UTILITY began testing for Per- and Polyfluoroalkyl Substances (PFAS) in drinking water entry points in January of 2023.

Sampling was conducted and testing was completed by Clean Water Testing. Testing results show Sparta’s public water system has “None Detected” at each entry point, at this time.

Below are the PFAS Sample Laboratory Reports (Analysis Date: 01/31/2023) of the five municipal drinking water entry points.

For additional information on PFAS substances: [Wisconsin Department of Health Services](#)
