

Inspection Requirements

The following is a list of required inspections.

Construction:

- Footing inspection (24 hour notice required)
- Foundation inspection before backfill
- Basement or slab floor inspection prior to pouring
- Rough carpentry inspection (may be done in conjunction with rough plumbing, HVAC & electrical inspections)
- Insulation inspection
- Final occupancy inspection

HVAC:

- Rough inspection (may be done in conjunction with rough carpentry inspection)
- Final inspection

Plumbing:

- Outside water/sewer lateral inspection
- Inside underfloor water/sewer (before pouring floor)
- Rough plumbing inspection
- Final plumbing inspection

Note: All plumbing inspections require witnessed tests except for final inspection.

Electrical:

- Service inspection
- Rough inspection
- Final inspection

Notes:

-The City of Sparta is a Certified Municipality. We are responsible for all commercial inspections.

-All inspections are required. Failure to call for the required inspections may result in work being exposed for approval.

-Every effort will be made to perform inspections the same day if they are called in by 10:00am. All footings and basement floor inspections require 24 hour notice.
